Environmental Health
Health Department
City of Columbus
181 South Washington Blvd.
Columbus, Ohio 43215

Dear Mr. Veeley:

This is a copy of the letter sent by Mr. Robert Minor, the attorney for the owners of the property located at Trabue and McKinley roads. Although addressed to me, it was and is intended for your consideration.

As indicated in the letter the owners want to reclaim their property, once the cite of a quarrying and excavating operation. However, it is their feeling and the consensus of anyone familiar with the cite, that it will be impossible to fill the quarry if the fill is limited exclusively to 'clean fill'. Therefore, the owners of the property propose that in addition to clean fill they be permitted to fill the site with those materials listed on page two, paragraph two, of the letter.

If you would, please review the letter and give your recommendations as to what the Health Department would require to permit the owners to fill this cite with the materials proposed in their letters.

Yours truly,

Donald T. Plank
Assistant City Attorney
